Notebook

If anyone missed us the past weekend, Friday and Saturday, we were in the big city attending the Alberta Weekly Newspaper Association Annual Convention at the big Mac.

Of course we picked up a few pointers and items of interest, as well as a few pounds from the many excellent meals we ate as guests of this firm and that firm. This utility company and that utility company and finally, the presentation of scholarships and awards for last year.

There will also be a panel on the subject of "Motivation". The panel will comprise: Moderator Mrs. Julie Peter, vice-principal of Drayton Valley High School, Dr. Ian Waugh, Mr. F. Heston, superintendent of the St. Hubert Stages Plus in School Division; Mrs. Les Oscar and Mrs. Don McKenna.

All are invited to attend this meeting.

Of course we picked up a few good stories too. One was told by the good Secord, the Hon. A. J. Hooke, Minister of Municipal Affairs and concerned space rights. According to Mr. Hooke Prime Minister DeLafontaine is anxious to send a man to the moon... and Mr. Pearson doesn't want to go.

Cookies and fruit -- the ideal
dessert for the luncheon.

QUICK OATMEAL COOKIES

1/2 cup brown sugar
1 cup all-purpose flour
6 tbsp. soft butter
3/4 cup rolled oats
1/2 tsp. soda
1/4 cup granulated sugar
1/4 tsp. salt
1 beaten egg
1 tsp. cinnamon (optional)
2 tbsp. water or milk
1 tsp. vanilla

Sift brown sugar and place in a bowl; sift and add flour. Add butter, rolled oats, soda, granulated sugar, salt, egg and cinnamon. Use a pie blender to cut the butter into the dry ingredients. When all the ingredients are well blended combine and stir in the water or milk and vanilla. Chill the dough for an hour or so. Roll it into 1" balls. Flatten them well between the hands. Place them on a lightly greased and floured tin, or you may drop the batter from a teaspoon, about 1" apart. Bake the cookies in a moderate oven (375°F.) from 10 to 15 minutes. Makes 2 dozen 2 1/2 inch cookies.

PINEAPPLE CRUNCHES

1 No. 8 can crushed pineapple (3 1/4 cups)
1 1/2 cups sifted flour
1 tsp. soda
3 cup brown sugar
3/4 cup butter
1 tsp. vanilla
1 3/4 cup corn flakes
1/2 cup chopped walnuts.

Drain pineapple, reserve syrup. Sift together flour and soda, cream butter and sugar. Add flour mixture, vanilla, and 4 tbsp. pine apple syrup. Stir in corn flakes. Form balls 1 1/4 inches in diameter, place on cookie sheet, indent each. Fill with crushed pineapple and sprinkle with walnuts. Bake in gas oven at 350°F. for 30 minutes. Makes 3 dozen.

ORANGE CHOCOLATE CHIPS

1 cup shortening
1 cup sugar
1 3-oz. pkg. cream cheese, softened
2 eggs
2 tsp. grated orange peel
2 tsp. vanilla
5 cups flour
1 tsp. salt
1 6-oz. pkg. (1 cup) semi-sweet chocolate pieces.

Cream together shortening, sugar, and cream cheese. Add eggs, orange peel, and vanilla. Beat well. Sift together flour and salt; add to creamed mixture, mixing well. Stir in chocolate pieces. Drop from teaspoon 3 inches apart on lightly greased cookie sheet. Bake in moderate gas oven (350°F) 15 minutes or till done. Cool slightly before removing from pan. Makes 4 dozen.

FOSTER PARENT'S PLAN

PRISONERS NEED POCKET BOOK

In a roundabout way, Canadians with unwanted paper-back pocket books may, for the price of shipping them to Montreal, participate in a heart-warming effort being made by penitentiary inmates to help two underprivileged children overseas. Here's the story:

Last May the inmates of St. Vincent de Paul Federal Penitentiary near Montreal began raising, among themselves, \$15. monthly to financially "adopt" a 10-year old Chinese refugee boy, now living in Hong Kong, through Foster Parent's Plan. Now that they are getting to know the lad through the exchange letters, they have become so enthusiastic that they have set up a special fund for contributions to a

THE ROYAL BANK OF CANADA

"College education fund" for him. Not content with this excellent start, they have just committed themselves, along with inmates of the nearby Leclerc Institution and Laval Federal Training Centre, to the financial "adoption" of a little Greek girl, through the Plan.

Money does not come easily to penitentiary inmates. Most of these particular contributions result from the sale of handicraft work. But reading material does not come easily either. And so, to encourage contributions of one dollar, the inmate editor of the prison magazine, who started the whole idea, began to offer fellow cell-mates two used pocket books as an added incentive. The scheme has worked well, but the supply of paper-backs is limited. The editor has now appealed to the Montreal office of Plan to see if more books could be rounded up. If you have a few pocket books you no longer read, and you wish to have them reach

these inmates, please send them to: Foster Parent's Plan, 1500 Stanley Street, Montreal 50. Please do not send them direct to the penitentiary. Your help will be warmly appreciated.

Life is very much like Christmas - you are more likely to get what you expect than what you want. HUSBAND: The boss acted like a lamb when I hit him for a raise this morning. WIFE: Tell me exactly what he said! HUSBAND: Be-

SEARCH FOR TALENT

The Ladies Auxiliary to the Canadian Legion Branch at Drayton Valley are once again sponsoring Search for Talent, according to Mrs. Muriel Bowles, auxiliary president. The popular talent show, sponsored jointly by CFRN Radio and the Associated Canadian Travellers, will be held at the Frank Maddock School Auditorium on Saturday, November 4 commencing at 7:30 p.m.

Mrs. Bowles stated that last year show at Drayton Valley set a record and a precedent in that two consecutive shows had to be held to accommodate the overflow audience. As a result of the tremendous response by the citizens of Drayton Valley and district, arrangements have been made to hold the show in the Frank Maddock School Auditorium where much more seating is available.

William Copeman of McKenna Show Stars is once again acting as liaison between the Travellers

and the local sponsors. He is top-stering the contestants at the store and he urges that those intending to compete should enter immediately as the number of contestants is limited to twenty. Mr. Copeman points out however, that entries in excess of twenty will be accepted and the A.C.T. office in Edmonton will attempt to place them in another show nearby. If this is not possible the contestants will receive priority listing one year hence, Mr. Copeman stated.

First place winner at Drayton Valley last year was William Adams, who has since moved to Edmonton, thus leaving the field wide open for a new winner.

All contestants will be competing for the Search for Talent Championship and all solo contestants are automatically eligible to compete for the Sunnyside Scholarship. Winners are declared by adjudication only.

A brand new, livelier Spotlight Parade will supplement the entertainment provided by the contestants, and will be free Johnny Forrest, Johnny Kent, Molly Kyte-

The last week of September in the House of Commons was a historic one for Northern Alberta. The bill authorizing the construction of the Great Slave Lake Railway was passed. This 450 mile railway which is being built from Grinshaw in Great Slave Lake will be the opening stage of the present development Northern Alberta and the North West Territories have ever seen.

The Liberal opposition opposed this Bill. Why isn't clear, but one prominent Liberal from Banter made the remark that he didn't care what happened in Alberta, as this was sectionalism.

If building projects like the South Saskatchewan Dam, the Columbia River project, the St. Lawrence Seaway and now the Slave Lake railway is sectionalism, then let's have more of it. This is another peg in the National Development policy outlined by the Prime Minister in 1958.

It will mean jobs and work in our area... lumber and the operation, railway workers, construction workers all will benefit.

Looking at Recreation

By: Michael Gormley,
Municipal Director

COACHES UNSURE HEROES

The ultimate success of any athletic endeavor or of any athletic program depends almost entirely on competent coaching. Otherwise you could have a program or an event that was a paragon of organization with everything moving like clockwork but if you have not got the required mental abilities or teachers in a specific field your organizational and promotional work will be all in vain and your hopes of a successful and fruitful program will fade away like the twilight on a summer day. Now you can have expert coaching in any event or in any field of athletic endeavor and still not be successful, there are many other factors that enter into the question which can and does make the difference between success and failure. Other things being equal, however, coaching or the lack of it can make or break the team, the sport or the entire athletic program.

Amateur sports make up a very vital part of any community recreation program. In way of comparison recreation is the informal phase of personal growth in learning and socialization while education is the formal development of the personality in the ethical, intellectual and social sphere. Since recreation and education are working hand in hand toward a common goal and since all amateur sports are classified as recreation, a further comparison would be logical, that of the coach to the teacher. Can you imagine the chaos that would ensue in a schoolroom with approximately twenty-five children solely on their own without any teacher? You get exactly the same picture with a group of young athletes trying to prepare for competition without the direction of a mentor or coach. In either case a badly run thing constructive could be learned and general disorganization and disunion is bound to be the ultimate result.

One main difference between education and recreation lies in the fact that education people are professionals, making their living in a highly specialized profession while in the field of recreation the only professionals are the community program directors. The different phases of the program itself are carried out almost completely on a volunteer basis. The coaches in the different fields and at the different levels of community sponsored athletic programs freely volunteer their time, energy and knowledge to the cause. What is the attraction that draws an individual into the role of coaching amateur sports, basketball, hockey, baseball, football, wrestling or judo? Whether it be a genuine desire to help others play a better, complete or some rewarding game or simply the appeal of the game itself,

an experience in any kind of coaching carries with it an indescribable reward. It is hard to describe the deep and lasting satisfaction that awaits a man who, as the season progresses, watches his charges improve and develop as a team of his own making. There is something of the builder, the creator in every coach which in itself is a source of great enjoyment.

REVAMPED STAMPS STOP MIGHTY BIKEMEN

The fired up Stampedes came up with the surprise of the local Pen West football team when they set back the previously unbeaten Bikemen 13-6 on the local gridiron last Saturday afternoon. The Stampeds showed a complete reversal of form in their power the little Green and Gold machine the throughout three quarters of play and held off a late Bikemo drive in the final quarter. The fans had set up quite a ruck since the inauguration of Pen West Football last year with three straight victories and one tie to their credit winning the 1960 Pen West Inter-Town Championship and the Frontier Trophy. At the start of the season the Babs were strong favorites to repeat, however since the Stampeds have started to ride the Lions have sharper claws than most of us are aware of, it would seem that from here on in it will be a real rat race for Foster's silverware this year.

In Saturday's game the Red Riders got off to a fast start with quarterback Barry Johnson engineering a series of cleverly executed plays both in the air and along the ground. Late in the first quarter the Stampeds got the ball at about the Bikemo thirty and three plays later Kenny Bitts went over from the eight yard line to make it 6-0 in favor of the Red and White. The Cowboy kept pouring it on and in the third quarter Bitts again was the man of the minute when he recovered a fumbled punt in the end zone to make it 13-0. Once again in the convert attempt was so good and that rapped up the Stampede scoring.

The Bikemo came back strong in the final quarter and a piling on penalty set them up with a drive in the shadow of the Stampede goal posts. Two plays later Larry Metekale hurried over and it was 13-6 for the Stampeds. The Greys and Gold put on a desperate rally in the final five minutes but the Stampedes defensive team led by Jerry Lewis Terry Wilner, David Disney and Brian Church kept the Bikemo pretty well bottled up until the final whistle. On the part of the Stampeds it was a tremendous team effort with each and every boy contributing all he had to the cause of victory. Church's defensive work at left corner linebacker was really sensational

as was the offensive and defensive line play throughout the entire game. In the light of last Saturday's line play outstanding at was that of Allen Gray, Jerry Hoidal was a real spark plug for the Green and Gold all afternoon and Larry Metekale turned in his usual excellent performance.

LIONS STOP STAMPS

The Lions got into the win column in the Inter-Town Pen West Football League last Wednesday evening when they trounced the Stampedes 13-1 on a snow swept gridiron. The Stampeds drew first blood when Jerry Lewis kicked a early in the first quarter the Lions came storming back and Jimmy Kay recovered the pigskin in half time to make it 6-1 at half time.

The Chapel Hour Your Heavenly Father Knows

Your heavenly Father knows that you have need of all these things. Seasonal fee \$25.00 per person and the classes will continue on through the winter months.

Taken From Family Herald.

In the teaching of Jesus as of all great teachers, there is an element of hyperbole. Sometimes He resorts to exaggeration or a startling figure of speech to drive home a point. We think of the man standing on a goat and swallowing a camel, or of a camel struggling to get through the eye of a needle. But we are in danger of assuming hyperbole in some instances where Jesus intended we take Him seriously.

Consider His teaching about God's providential care. "Why," He asks, "are you anxious about food and clothing? Your heavenly Father knows that you need these things."

The prophet of old was one who God knew the number of the man and called them all by name; Jesus affirms that the very hairs of our head have all been counted and their number known to God.

This is not poetic fancy done up before we accept any such suggestion, we should remember that Jesus Himself, in the best example of what it means to trust in God, nothing amazed Him as much as men's lack of faith. Again and again, He asked His disciples why, "Why is it that you have no faith? His trust at men's failure to trust the heavenly Father, are indications of His own radiant confidence in God which He wanted all men to share.

This is an age of anxiety. Nervous breakdowns, ulcers, and heart disease bear witness to the strain and stress of modern life. It is not related to a loss of faith in God's anxiety kills initiative, and inhibits effective action. We need the security of faith that grows out of the confidence that life is good because it is in the hands of a wise and loving heavenly Father. This security is a wonderful by-product of faith in God, which means, not simply believing that life is, but actually committing one's life to Him.

Jesus put His finger on the real causes of anxiety and fear.

WHAT ARE SOME OF THEM?

First, obsession with material things. It is not about to imagine that human beings exist merely to maintain existence. There is a lack of purpose; the lack of something outside ourselves to live for, something big enough to satisfy the essential greatness of our nature. And, finally, we show us all too plainly.

We are constantly being reminded of the breakdown in personal honesty, sharp business practices, the basic causes of anxiety and fear.

By Rev. W. G. Onions

And, they say, be overcome by trust in God. This is God's world. He is Creator and Lord. His wise and loving purposes cannot fail and if you will commit yourself to Him nothing can really harm you. On the contrary, you will find true joy and blessedness. Jesus said, "Seek ye first the kingdom of God and His righteousness, and all these things will be added unto you."

The Russian novelist, Turgenev, said that a friend once wrote to him, "It seems to me that to put oneself in the second place is the whole significance of life."

To which Turgenev replied, "It seems to me that to put oneself in the first place, is the whole sense of life!"

Jesus said, "Seek ye first the kingdom of God."

This means to acknowledge God's sovereignty - to submit to Him as Lord. This is a very early thing to say, but carrying it into practice is a different matter. For one thing, we cannot put God off into a corner. He will not be so confined. One of the illusions of religion fails in to assume that God is only interested in religion. But He is the Lord of all life, and all areas of life must be brought under His rule.

The relevant and responsible use of the earth's resources, recognizing that we are trustees not owners, is one way of acknowledging God's sovereignty. The exploitation of natural resources on the basis that there are men strong enough to make are entitled to land, is a denial of that sovereignty. Respect for all men, regardless of race or color, is another way of acknowledging God's sovereignty. Racial discrimination and intolerance are an offense and affront to God.

RESULTS OF DENIAL OF GOD

For further evidence of what results from the refusal to recognize God's sovereignty, look at the anarchy in international affairs. We say we acknowledge one God, but for all practical purposes we are still living in the age of tribal animosity. If we were really committed to God's kingdom first, we would put humanity ahead of national interest, and would order ahead of local sovereignties. National sovereignty means anarchy, and anarchy in the nuclear age is sheer insanity.

Any man with his finger on the pulse of his age and his judgment sharpened by fear and suspicion can see that the world is in a state of anarchy. It is the inevitable result of trying to live without faith and trust.

There are the basic causes of anxiety and fear.

LUTHERAN CHURCH NEWS

WORKING FOR CHRIST

In order to work for Christ we will in the next few weeks put on an Every Member Visit Program. This is not only to further Christ's work by material gifts but also to bring us closer to Christ and his forgiveness. This is also to present the work of the church to our people in their homes. If there are any questions in the minds of the people about the work of the church, these questions can be taken up in the home in private.

Remember these words.

"Only one life, well soon be past
Only what's done for Christ will last."

Some folks who expect salvation at the eleventh hour die at midnight.

Some people have no use for the church except when they want to use it.

Others see the church, not through our arguments, but through our lives.

The Country Parson

"You can walk a rail easier if you don't look down... in fact, you can do anything easier if you keep looking up."

It is a weak religion that is never strong except when its owner is sick.

Some folks who expect salvation at the eleventh hour die at midnight.

Some people have no use for the church except when they want to use it.

Others see the church, not through our arguments, but through our lives.

GREEN ACRES

East C. Lowe,
District Agriculture Agent,
GARDEN CLEAN-UP

Reduce plant disease hazards in your garden next year by taking action now, advises Dr. W. P. Stenop, Associate Professor of Plant Pathology at the University of Alberta.

Plant protection from the many diseases that abound in the year is a season-long job, he says. Seed treatment in the spring, spraying during the growing season when these organisms start to show their effects, and clean-up in the fall to prevent overwintering and infection are all part of a combination of control measures.

The present concern is that many of these organisms are so adapted to our conditions that they can exist comfortably through the winter if we give them a chance. That chance will be considerably reduced if we can know and appreciate their tactics.

Although some plant disease organisms are seed-borne and others overwinter in the soil, many of our common garden diseases carry

through the winter on the stems and leaves of dead plants, says Dr. Stenop. Fungi and bacteria are the common culprits. Their winter spores are somewhat different from the summer spores in that they have a tougher coat and are better able to withstand dry, low temperature conditions.

Some common diseases carried over on garden refuse are bacterial blight of beans, bacterial canker of tomatoes, anthracnose of beans and fungus blight of peas. Then there are the mildews, soft rot of potatoes, grey mold rot of lettuce, and the sclerotinia rot of carrots, beans, celery and other vegetables.

Burning is the best protection where feasible. Where not, the diseased material should be gathered and removed from the lot. Diseased leaves of shrubs and ornamentals should be similarly destroyed. Rose leaves with black spot, diseased peony and gladiolus leaves and stalks, and cuttings of leaves of all sorts on various ornamentals come within this category. Remains of healthy plants can profitably go into the compost heap. The diseased material should be burned or otherwise disposed of.

The mound builders lived before the dawn of American history and were probably the ancestors of the Indians.

The mound builders lived before the dawn of American history and were probably the ancestors of the Indians.

LOOKING AT RECREATION

(Cont. from page 6, Col. 5)
ing some mighty fine football in the Spartans backfield this year suffered a knee injury in Camrose last Saturday. The injury would appear to be along the lines of a torn cartilage which could mean that Anderson will be lost to the Spartans for the remainder of the season. If such is the case he certainly will be missed in the local lineup.

It certainly was nice to see the Spartans break through for a victory in Camrose and the local boys in White and Blue had been losing the close ones and the Camrose T.D. splurge certainly was a much needed shot in the arm. Harold Townsend's Delphics are going like a home office - Like Notre Dame of Notre Dame's day, they are not satisfied with just winning but they insist on annihilating their opponents from the score board. In three games to date they have won 30-0, 5-0, and 31-0 - Nice going boys.

The lawyer informed his client, "I have arranged a settlement with your husband that is fair to both of you."

"Fair to both?" she stormed. "I could have done that myself! Why do you think I hired you?"

HIGHWAYS

Gordon E. Taylor, Minister of Highways, has announced that highway construction in the Province was reaching completion.

With reasonably good weather this month, we should now be very close to fully completing our programme for 1961, the Minister said.

As of September 30th, 89% of the grading contracts, or \$27, 920 miles, had been completed - this compares with 75% completion exactly one year ago.

89% of the stabilized gravel base course programme, (198,41 miles) has been completed - this compares with 75% completion one year ago.

85% of the Asphaltic plant mix surface course has been laid, (288.59 miles) as against only 75% at this time in 1960.

94% of the double asphaltic surface treatment, (64.7 miles), has been completed, as against 85% of the 1960 programme.

100% of the seal casting, (250.57 miles), has been completed, and this part of the programme was also completed at this time last year.

In 1960, 2,221 shifts were lost due to rain, whereas this year during the same period 1,459 shifts were lost.

POLICE REPORT
(Cont. from page 1, Col. 3)

made wards of the Welfare department. In one case two of the children were so undernourished that the Welfare branch had to spend some sixteen hundred dollars on medical and dental care. During the year one juvenile was taken to Bowdoin Institution from Drayton Valley.

DECREASE IN COURT CASES:

Province wide reports show a marked decrease in the number of cases appearing in courts this year over the preceding year. This has included all ages levels. But has been particularly noticeable among juveniles. There has also been a marked decrease in the number of traffic charges for traffic violations. It is thought that the endorsement of driver's licences in the case of traffic infractions has had much to do with the decrease in the number of violations. The fact that suspension of driver's licences could come after a certain number of licence endorsements is thought to have had a very salutary effect on the habits of Alberta drivers.

FOOTBALL (Cont. from page 1, Col. 2)

The Spartans defensive unit turned in a tremendous effort and actually broke their opponents' backs with their snowball tactics. In fact throughout the entire sixty minutes of play the Rose City offensive could never come within punting distance of the Spartans goal line. The Spartan line play was outstanding both on offense and defense.

Next Sunday afternoon the Carmore High School squad will be visiting Drayton Valley for an other crack at the Spartans.

The game will take place at the local football field at 3:00 p.m. Try to be on hand to give our boys a cheer.

DELPHICS CRUISE CAMROSE 31 - 8

The Drayton Valley Delphics are still undefeated and undefeated on after their third weekend of competition in Bismarck football. The Delphics, under Harold Townsend, continued to steamroll over all opposition as they flattened the Carmore Junior High School team 31-0 in an exhibition game played in the Rose City last Saturday. The game was played before a meager crowd under excellent weather conditions.

From the opening whistle the Delphics romped at will, commanding the situation on almost every turn throughout the game. They had 17 first downs to Carmore's 4, and they picked up a fantastic total of 555 yards during the afternoon's play, making 323 along the ground and going to the air twice for 33 yards. Each team had one pass intercepted.

David Joyce played a great game at quarter for the Drayton crew. He kept the Carmore defense continually in hot water with his versatile signal calling. He carried the ball himself no less than seven times for a total of 83 yards and scored two touchdowns. Once again Gerald McMillen was the leading yard gainer for the Delphics. He rambled for a

total of 95 yards on 12 carries, made the key pass interception that set up the first touchdown and went over for a major score himself. The other T.D.'s were scored by Gary Mastro who went over on a 25 yard pass and run play and Gordie Vasiloff who turned in another excellent performance, running back punts for a total of 108 yards and rushing for 70 in four carries. He also scored a convert. Eddie Hoidal turned in a fine all-around game, ruffling for a total of 46 yards. Cliff Lindholm, hampered by a bad knee saw very limited offensive action but managed to pick up 20 yards in two carries. Paul Joyce pulled in a pass for eight yard gain and Captain May, who carried the ball twice for eight yards.

D.V. Highlights

By: Edith Dohy

The Chivaldians are planning to move to Calgary at the end of the month. Good luck, folks. Sorry to see you go.

Maria Ann MacLean's many friends are most happy to hear that she is making satisfactory progress after her operation, and expects to be back in school after the new year.

Mr. Fred Murray, formerly known as a building contractor in Edmonton, has retired, and will make his home with Mr. and Mrs. Henry Dunlop at Violet Grove.

A wedding of interest will be announced in all Saskatchewan Church on October 28 when Miss Sandra Pratt and Mr. Harold John Gowda exchange wedding vows. The bride elect is well known here. She is the daughter of Mrs. Mary McDowell and granddaughter of Mr. and Mrs. Walter Dunham.

Have you seen Helen Hill's painting? They are on display at the Community Library and may be seen on Tuesday evenings or on Tuesday or Friday during the noon hour or late afternoon.

For those of you who are not acquainted with Mrs. Hill, she is the former Helen Harris, who came to the attention of the Pemberton West of Violet Grove - in her

toons to keep house for her brother, the late Walter Harris. She married Edward Hill, son of Mrs. William Hill and the late Mr. Hill, and has five lovely daughters.

Mrs. Hill, a gifted musician and dance teacher, was a tremendous asset to the little community. She gave unstintingly of her time and talent for such things as the annual Christmas concert, the country dances which were the chief entertainment, and the Women's Club.

All during the busy years, in addition to her other chores, Mrs. Hill found time to study and to paint. She is still studying and painting.

Do give yourself a treat and go to see the Helen Hill paintings.

Mr. and Mrs. Jack Sterling, nee Betty Whyte, welcomed a fine son early on Tuesday morning. The newborn weighed in at a robust eight pounds and four ounces.

To Mr. and Mrs. Alex Sterling being grandparents is no novelty but it is Mr. and Mrs. Harry Whyte's first grandchild. It is our most earnest wish that Mr. Whyte does not burst with pride!

D.V. Hospital Women's Auxiliary

Reported by Janet Brinkli.

OIL WIVES' MEETING -

The Oil Wives' meeting was held in the Cardium Room on Wednesday evening October 11. There were 92 in attendance, including 6 new members.

The meeting was called to order at 8:15 by the president. Points to be dealt upon at the first coming conversation were discussed

by the members. This convention, to be held in Estevan from October 16 to 20, will be attended by Mrs. Worthington and Mrs. Booker from the Drayton Valley Club.

The programme committee entertained the member by staging a number of Halloween games in which everyone had a chance to partake.

Reported by Pat Sultzer.

A tiny but dignified old lady was among a group looking at an art exhibit in a new gallery devoted to contemporary painting. When one picture caught her eye, she inquired, "What on earth is that?"

The gallery attendant smiled condescendingly. "My dear lady, it is supposed to be a mother and child."

"Well, then," replied the little old lady, "Why isn't it?"

HALLOWEEN BONSPIEL & MASQUERADE MOCCASIN DANCE

First Spiel of year, starting Oct. 28 finishing Oct. 30.
Mixed rinks, two women, two men. Entry fee \$12.00 per rink
Contact Mr. Al Casey re entries, closing date Oct 25.
Final draw Mon. Oct. 30 followed by Masquerade Moccasin Dance.

Dance open to Bonspiel curlers only.

TOAST MISTRESS MEETING

Reported by Ruth McMillin

The Pembina Toastmistress Club in keeping with local interest in town elections had a "Town Hall Night" theme at their regular Oct. 10 meeting. Three candidates for mayor, Frieda Wright, Doris Kerr and Isabel McKay gave 7 minute campaign speeches. Some of the promises made in their platform speeches were:

(1) fountain in front of town hall made from oil pipes (2) free baby sitting service up town. (3) flower pots as lamp posts (4) cement steps to curb on corners in order to ease the discomfort of the large baby carriage population. The meeting was enjoyed by all members and guests.

We welcome all visitors to our meetings held every 2nd and 4th Tuesday of the month in the Club Cafe at 8:30. Anyone interested may phone membership chairman, Doris Kerr at 542 - 3698.

(FARTHEST NORTH DRELLING RIG (Cont. from page 1, Col. 1)

ials and supplies and get out of the area before the ice started to settle in again, although on the way back, just off the northern Labrador coast it did run into a terrific storm that almost foundered it.

Drayton Valley was represented at the far-north whistle when Dowell of Canada sent Louis Deane to the site to cement the surface casing. Louis left Edmonton on September 15th. The big DC3, owned by Peter Barden, refueled at Yellowknife, came down at Resolute Bay again for refueling and breakfast and then flew on to Wimmer Harbor; a trip of about 1900 miles from Edmonton.

Deane said they flew over a heavy overcast both going to Melville Island and returning so they didn't get to see much of the country. The rig was set

up three quarters of a mile from the beach. After he got to the site of the rig he waited for two weeks before he was able to cement the surface casing. After the job was completed he waited a week for a return flight home. Owing to Arctic conditions a special type of cement was used a cement that has been especially adapted for Arctic regions.

When he was there, there were about 35 men in the camp, which he said, was very well set up and operated. While he was there the ocean was still open, although ice was forming fast, and each day, even at that time, was colder than the one preceding.

The below zero was so cold it got while he was there, but elsewhere in Canada at the same time the days were a balmy 70-80 above. One thing that made it seem even colder was the constant wind, which, in that barren land devoid of any kind of vegetation, had the full sweep of the countryside. The island abounded with small grey Arctic foxes, which came close to the camp. The entire country is protected so far as wild life is concerned so the little foxes were quite tame. There are no Eskimos living regularly on the island, since it is separated from the mainland by many miles of ocean.

Other native animals included large timber wolves and muskoxen.

Cost of transporting the rig and the camp in by ship is estimated to be well over a million dollars. It is expected that the rig will be abandoned when the hole is completed owing to the excessive cost factor of moving it out again. It is possible that the government will take over the camp when Dome Petroleum, the oil company who are having the drilling done, is through with it.

Although Mr. Deane did not get to see much of the land below on account of overcast, on the final leg of the trip to Wimmer Harbor they were over the ocean flying low beneath the clouds, and they saw a very large school of whales, near Resolute Bay. They estimated that there were between 75 and 100 whales in

the school. The island was first visited by the white man, so far as records indicate, by the explorer Bernier, flying under the British flag, in search of the Northwest Passage. Bernier arrived there in 1619 and wintered there with two ships for two years.

Louis arrived back in Edmonton after being gone for three and a half weeks to the top of the world.

Apparently the oil industry boys get around the world in a big way; from the heat of the tropics to the cold of the Arctic the men in the industry take it all in their stride.

SCOOP'S NOTEBOOK (Cont. from page 3, Col. 5)

He also suggested that weekly newspapers are like women.... each man should have his own and not borrow his neighbor's.

Another story told by the editor of the Wetsaskwin paper and concerned a lawyer friend of his, a rascal Tony, who takes his guests to the Steak Loft in Edmonton.

Just inside the entrance to the Steak Loft are two signs. One goes up... to the Steak Loft. The other goes down... to the Social Credit hall. The lawyer pauses just inside the door way and points to the two sets of stairs. He then says dramatically: "If you want beef go up but go down if you want baloney."

Countable Joe Dixon is going back to school. Countable Joe will leave the end of October to attend a six weeks Provincial Municipal Police course which will be conducted in Edmonton under the sponsorship of the Attorney General's Department.

which extends from north of Swan Hills to the Breteau River, was a visitor in Drayton Valley recently.

He was on his way through to the

Ranger Station in Lodgepole. Mike said he and Kaye wished to greet their old friends. Of course, like all well-informed persons, the Burkes subscribe to the P.N.A.

SHADES OF '59. The earliest drilling rig in these parts, the Reading and Bates rig No. 3 that

drilled the historic No. 1 Discovery well for the oil company which we now know as Mobil Oil of Canada had a drill bit by the name of Frank Hodge, who later became a tool push and pushed drill rigs in all parts of the world. This strange viscous fluid which we call petroleum.

Mr. Hodge is back in Drayton Valley for a few days. He is now superintendent petroleum company, International Petroleum, International has Cascade Drilling Co., employed to drill some holes for them in the Lodgepole area.

After he left Drayton Valley in 1954, Mr. Hodge pushed rigs in offshore drilling in the Gulf of Mexico, on the north coast of South America and in Kuwait, Arabia. He said that when he first came to Drayton Valley in 1953 he boarded with Mr. and Mrs. Jack Tucker in the building that is now occupied by the Pembina News Advertiser. Mr. Hodge was very sorry to hear that both Mr. and Mrs. Tucker had now passed on. He said they both treated him like a long lost son, giving him pots of coffee in off-hours and looking after his welfare in many other ways.

JACK DEAKIN

Old-line newspaper men have long been immortalized in movies and fiction; Jack Deakin is typical of the old-line newspapermen, with perhaps one exception: most of them were boomers, and Jack has stayed put pretty well on one job.

He was born in Edmonton. He didn't ask just when and we didn't ask him. He started earning his own living at the age of fourteen as a messenger boy for the C.P.R. Telegraph.

He was three years in the East, east of Edmonton that is, with little afraid that he might starve to death... however, he did survive. He went to work for the old Edmonton Bulletin. Spent three years in the East (east of Edmonton that is) with the Sudbury Daily Star and the Winnipeg Tribune and returned to Edmonton. When the Journal took over the Bulletin Jack went along and has been with the Journal for 10, these many years. He is Provincial Editor. He now has some thirty years in newspaper work behind him. He went to work at an early age with the Canadian Press. His mother was pleased when young Jack came home one night and told her he had quit his job with the C.P.R. and gone to work as a reporter... but she was also a Once a sports editor, his favorite sports are hockey and baseball. Jack is well-known to many Drayton Valley folks as he has covered many events here for his paper.

HUDSON'S BAY CELEBRATES 2nd ANNIVERSARY

Now celebrating its second year serving Drayton Valley the Hudson's Bay store has proved a very good adjunct to the business and shopping section of this growing, progressive town.

Undoubtedly the store has brought in many additional thousands of dollars into the town and district since it was first opened at the end of October, 1959. Most of

this would have gone to other larger centres. The opening of the new store has proved the faith the Hudson's Bay company has in the future growth of the town and district.

The large department store has attracted business from surrounding areas, particularly from across the river. When buyers have come in from Drayton Valley to shop in the Bay they have also stopped

in the many other fine retail outlets that were to be found in Drayton Valley.

The store maintains a permanent staff of some 18 persons. Mr. Klapp is manager. Assistant Manager is Mr. Jack Kerr. Ron Elmslie is in charge of the Groceries. Stephen Kupferschmidt is in charge of the Mens Wear. In Drayton Valley to shop in the Bay they have also stopped

at No. 7, Northern Region, International Teamsters club. The local club expects to host about 75 women delegates from Saskatchewan and Alberta at this three day affair, which will be held the weekend of April 6, 7 and 8th, 1962.

On Friday night the house club will start off the events with a Coffee Party. On Saturday the business meeting will be held in the morning, followed by a luncheon honouring the presidents. On Saturday evening a banquet will be held featuring the Speech contest for Council No. 7 at which time for an invitation to play hockey in the Spring Conference of Council No. 7 at which time

PEMBINA TOASTMISTRESS CLUB TO HOSTESS COUNCIL NO. 7 SPRING CONFERENCE OF TOASTMISTRESS CLUBS.

Three Drayton Valley Pembina Toastmistress Club delegates attended the Fall Conference of Council No. 7 of International Toastmistress Clubs, held in Saskatoon over the past weekend. Those attending from the local club were, Shirley Tolchard, Margo Melars and Doris Kerr. Held in the Vansborough Hotel in Saskatoon, the conference was declared a huge success by the some eighty delegates who attended.

District Personalities

JAMES LORNE KLAPP

Mr. Klapp was born in the Manitoba town of McCreary where he attended public school, attending high school in neighboring Kelowna.

In 1960 he joined the staff of the Hudson's Bay Company in Winnipeg. In the course of his service with the Hudson's Bay Company he has worked in a large number of B.C. stores in Manitoba, Northern Ontario and Northern Manitoba. In addition to that he was attached to the Head Office in Winnipeg for a period of two years.

In recent newspapers was a picture of the little miss in Thompson in northern Manitoba. Mr. Klapp opened the first Hudson's Bay store in Thompson, for the Hudson's Bay Company in 1967. At that time Thompson consisted of about twenty tents. They slept in sleeping bags for the first few weeks. Thompson now is a city of some 10,000 persons.

Prior to coming to Drayton Valley Mr. Klapp was managing the Hudson's Bay store at Lynn Lake, Manitoba. Lynn Lake is the site of the big Sherritt-Gordon Nickel Mines, producing mine for the Fort Saskatchewan smelter.

Lorne is acting Chairman of the Board of Stewards for the United Church, he is a member of the Drayton Valley Golf Club, the Bowling Club and the Curling Club and is a member of the Chamber of Commerce. He is active, also, in a number of community activities.

Mr. Klapp was sent by his company to open the new Hudson's Bay store in Drayton Valley in 1959, which was officially opened on October 19, 1959. This week the Bay is celebrating its second anniversary.
